# Craft your own cow

GETTING STARTED

1. Make sure the milk carton is clean and dry.
2. Draw black cow spots on the white paper.
3. Cover the milk carton with the white paper decorated with black cow spots.
4. Print the coloring sheet and color the nose and ears pink, then cut out the head and stick it on top of the carton.
5. Cut out the tail and attach it to the back of the carton.
6. If you like, you can make the cow's legs using toilet paper rolls. Color them with black cow spots as well.

Show Anna and Dean how your milk carton cow turned out! Send your photo to: **Anna-en-Daan@deheus.com**
